

7. (i) x (no. of goals)

30

50

25

15

0

1

9

$$\boxed{\sum x = 120}$$

$$n = 60$$

$$\therefore \bar{x} = \frac{\sum x}{n} = \frac{120}{60} = 2 \text{ Ans}$$

(ii) x (played matches)

12

15

10

10

6

2

5

$$\boxed{\sum x = 60}$$

$$n = 7$$

$$\therefore \bar{x} = \frac{\sum x}{n} = \frac{60}{7} = 8.57 \text{ Ans.}$$
