# Chile

Atacama Desert, Spanish **Desierto de Atacama**, cool, arid region in **northern Chile**, 600 to 700 miles (1,000 to 1,100 km) long from north to south. Its limits are not exactly determined, but it lies mainly between the south bend of the Loa River and the mountains separating the Salado-Copiapó drainage basins.

What is the Atacama Desert famous for? 

Surprisingly, around one million people call the **Atacama Desert** home. Crowding into coastal fishing villages, mining areas and oasis towns. Inhabitants grow dry-weather produce such as olives, tomatoes and cucumbers, and herd alpacas for a living. The **desert** is also **famous for** mining copper. Oct 18, 2018
